## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation in claim 1 that the bristle arm and the handle arm overlap "at least one-eighth the toothbrush length" is new matter not supported by the original disclosure. In paragraph [0029], the specification states that, for a bamboo handle, the bristle arm and the handle arm overlap 1.5 inches when the arms are 2-4 inches in length. These measurements mean that the length of the handle would be between 2.5 and 6.5 inches. With this range, the overlap of 1.5 inches would not be one-eighth of the length of the toothbrush. In paragraph [0030], the specification states that a preferred embodiment includes a toothbrush with a length of 4 inches and an overlap of 2 inches. With these measurements, the overlap would not be one-eighth of the length of the toothbrush.

MPEP 2163.05, III states that a limitation, like "at least," has no upper limit and causes claims 1-20 to read on embodiments outside of the originally disclosed overlap, such as those having a length about ten times the length of the toothbrush.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
